FINGERTIPS OF THE SILVERSMITH

"Talking to various music journalists, they all reckon that you're the next big thing, in the way that Conor O'Brien and Villagers was last year." **Newstalk**

*"One of the songs here is inspired by the death of Elliott Smith, but in fact that tortured genius's influence can be heard all the way through Fingertips Of The Silversmith – a dreamy, understated collection of Americana-tinged folk-rock, marked out by Cooke's poetic sensibility and keen eye for life's absurdities." **** The Sunday Business Post*

"Fingertips of the Silversmith is delivered in a crisp clean tone with the songs banding together to form an incredibly tight, allusively diverse record... Each one displays perfect melodies, excellent structures and pure enjoyment... One of the strongest albums an Irish artist has come out with this year." GoldenPlec

"The arrangements are understated and the backing, courtesy of players like drummer Kevin Brady and bassist David Redmond... is stellar" HotPress Album Review

"Unique brand of shimmering rock... Soft yet strong, it's got that Jeff Buckley quality to it that most vocalists crave." Hot Press

"Charting a course between noir-ish torch-songs and heart-on-sleeve folk-pop" Metro

*"Eminently likeable, utterly enviable." **** The Irish Times*
